Curriculum Intent
Physical Education

Physical Education at Bassingbourn Village College aims to develop confident, resilient and physically literate young people who understand the value of sport, physical activity and healthy lifestyles. Through a broad, balanced and ambitious curriculum, students develop physical competence alongside teamwork, leadership, respect and self-discipline, enabling them to succeed both within and beyond sport.

Our curriculum is inclusive and designed to ensure every student can experience success through the development of curriculum strands linking to their head, heart and hands. Students gain knowledge of health, fitness and wellbeing, while developing the skills and confidence to participate in physical activity throughout their lives.

As a rural Cambridgeshire school, we are proud of our strong sporting community. Students have opportunities to participate in a wide range of extracurricular clubs, represent the college in fixtures against local schools, and compete in events such as the Jubilee Cup. Students who demonstrate commitment and excellence can become Sports Captains and Sports Leaders, leading clubs, officiating events and supporting younger pupils. Our students also play a key role in hosting and supporting local primary school sporting events.

We aim to inspire every student to leave Bassingbourn Village College with the knowledge, skills and motivation to lead an active, healthy and fulfilling life, while making a positive contribution to their community.
